

HTML & CSS Project

Personal Portfolio Webpage

You need to create a one-page personal portfolio that includes the following sections:

1. **Header** with your name and a navigation menu.
2. **About Me** section with a short bio and a photo.
3. **Skills** section listing your skills.
4. **Projects** section showcasing some of your work.
5. **Contact** section with a simple contact form.

Example

John Doe
